Brand Package

Identity guidelines for print, digital, and partnership materials

Where the wild things fly.

A program of ElevateUT Disc Golf, a 501(c)(3) nonprofit organization.

April 2026

Brand Identity

EXPLORE Disc Golf is a national program to expand disc golf access on America's public lands through federal partnerships, community-driven course development, environmental stewardship, and policy advocacy.

Mission

To expand and protect disc golf access on America's public lands through federal partnerships, community-driven course development, environmental stewardship, and policy advocacy.

Vision

Every American lives within reach of a free disc golf course on well-managed public land.

Name Treatment

EXPLORE is always set in all caps. It references both the verb (go explore public lands) and the EXPLORE Act (P.L. 118-234), the federal statute that provides the legal foundation for this work. Disc Golf is set in title case.

Abbreviated form: EXPLORE DG (informal contexts, social media)

Taglines

Primary	Disc golf on America's public lands.
Secondary	Find your land. Build your course.
Tertiary	Where the wild things fly.

Legal Attribution

ElevateUT appears only in legal contexts. Website footer: "EXPLORE Disc Golf is a program of ElevateUT Disc Golf, a 501(c)(3) nonprofit organization." ElevateUT does not appear in the logo, navigation, social media handles, or campaign materials.

Logo

The EXPLORE Disc Golf logo is a wordmark with an integrated landscape silhouette. "EXPLORE" is set in bold uppercase with a continuous American landscape flowing through the letterforms — transitioning left to right from desert cactus and buttes, through canyon walls, to a lone savanna tree, through an evergreen forest, to mountain peaks. "Disc Golf" sits below.

The landscape tells the story of America's diverse public lands in a single mark.

Primary — Night Sky on light backgrounds

White variant on Night Sky background

White variant on Terra Cotta background

Logo Usage

Approved Color Variants

Variant	Color	Usage
Night Sky (dark)	#1E2D3B	Primary — light backgrounds, documents, web
White	#FFFFFF	Dark backgrounds, photography overlays, merch
Terra Cotta	#B85C38	Single-brand-color applications, accent use

Rules

- Minimum clear space: equal to the height of the "E" in EXPLORE on all sides
- Never stretch, rotate, skew, or add effects (drop shadows, glows, outlines)
- Never recolor outside the three approved variants
- On photographs: use white version only, with a solid backing or scrim if needed
- Minimum width: 120px digital, 1.5 inches print

Never Do This

Place the logo on busy photographic backgrounds without a scrim or solid backing

Use the dark variant on dark backgrounds

Add a stroke or outline to the logo

Rearrange the landscape elements or "Disc Golf" text position

Use the logo at sizes smaller than 120px wide

Animate, rotate, or apply 3D effects to the logo

Color Palette

The palette is rooted in the western public lands landscape: burnt earth, sage, desert sky, and sandstone. It intentionally echoes BLM's own visual identity so that EXPLORE Disc Golf materials feel native to BLM contexts.

Primary Colors

Terra Cotta	Sage	Summit Gold
#B85C38	#5B7F3B	#D4952B

Terra Cotta	Brand anchor. Buttons, headings, logo mark. Evokes western desert and red rock.
Sage	Conservation and stewardship. Success states. Evokes rangeland and healthy ecosystems.
Summit Gold	Calls to action, highlights, deadlines. Evokes sunlight and warmth.

Neutral Colors

Night Sky	Driftwood	Sandstone	Snow
#1E2D3B	#6B6560	#F5F0E8	#FEFDFB

Night Sky	Body text, dark backgrounds, authority. Deep blue-slate.
Driftwood	Secondary text, borders, subtle UI. Warm gray.
Sandstone	Page backgrounds, cards. Warm cream — like a field guide.
Snow	Clean backgrounds, high contrast areas. Warm white.

Extended Colors

Basin Teal	Amber	Signal Red	Trail Green
#1A8BA3	#E8A93E	#C4422B	#3D8B37

Basin Teal	Interactive elements, links, map UI. Nods to BLM's teal.
Amber	Deadlines, time-sensitive callouts, warnings.
Signal Red	Errors, critical alerts. Muted, not aggressive.
Trail Green	Completed status, positive outcomes, success.

Color Rules

- Never use more than 3 colors on a single page element.
- Terra Cotta + Night Sky + Sandstone is the workhorse combination.
- If only one color can be used (favicon, single-color logo), it's Terra Cotta.
- Sage signals stewardship — use for environmental content and Leave No Trace messaging.
- Summit Gold signals action — use for CTAs, deadlines, "act now" moments.
- Basin Teal is for interaction — links, map elements, clickable UI.
- Default to Sandstone backgrounds. White backgrounds feel like a tech app; Sandstone feels like a field guide.

Typography

Typeface Selection

Role	Typeface	Weights	Fallback
Headings	Plus Jakarta Sans	Bold 700, ExtraBold 800	system-ui, sans-serif
Body	Inter	Regular 400, Medium 500, SemiBold 600	system-ui, sans-serif
Monospace / Data	JetBrains Mono	Regular 400	ui-monospace, monospace

Plus Jakarta Sans has geometric confidence without being cold — suitable for headings on a BLM desk or a legislator's briefing. Inter is the most readable screen font available, designed for UI. Both are open source (SIL Open Font License).

Type Scale

Element	Size	Weight	Line Height
H1 (page title)	2.5rem / 40px	ExtraBold 800	1.1
H2 (section)	1.875rem / 30px	Bold 700	1.2
H3 (subsection)	1.5rem / 24px	Bold 700	1.3
H4 (card title)	1.25rem / 20px	SemiBold 600	1.4
Body	1rem / 16px	Regular 400	1.6
Small / Caption	0.875rem / 14px	Regular 400	1.5
Overline / Label	0.75rem / 12px	SemiBold 600	1.4

Special Treatments

- EXPLORE in the brand name: Plus Jakarta Sans, ExtraBold 800, all caps, letter-spacing 0.05em
- Section numbers (e.g., "Section 341"): JetBrains Mono, Regular 400
- Statistics and pull quotes: Plus Jakarta Sans, Bold 700, oversized (2-3× body)
- "Where the wild things fly.": Plus Jakarta Sans, ExtraBold 800. The tagline gets the hero treatment.

Typeface Examples

Plus Jakarta Sans — Headings

EXPLORE DISC GOLF

ExtraBold 800 — Brand name, page titles, hero text

Where the wild things fly.

ExtraBold 800 — Taglines, campaign headlines

The EXPLORE Act and Your BLM Office

Bold 700 — Section headings, card titles

Inter — Body Text

Disc golf is a low-cost, low-footprint, family-friendly, stewardship-ready recreation option that can help your office advance accessible recreation, youth and veteran engagement, underutilized day-use sites, and shoulder-season visitation under authorities you are already implementing.

Regular 400 — Body text, descriptions, long-form content

Section 214 requires BLM to select at least two new accessible recreation opportunities in each BLM region.

Medium 500 — Emphasis, inline highlights

Good Neighbor Authority sunsets January 2030

SemiBold 600 — Callouts, labels, navigation, deadlines

Pairing Example

Find Your BLM Office

Enter your zip code or click "Use my location" to find the BLM field office that manages public land near you. Each office page shows contact information, engagement status, nearby recreation sites, and a one-click button to generate a tailored engagement packet.

Cedar City Field Office — 2 courses built

Three Peaks Recreation Area, Iron County, Utah

Voice & Tone

EXPLORE Disc Golf speaks with informed confidence. It knows the statute, knows the data, knows the land. It's not asking permission — it's offering a partnership.

Brand Attributes

Attribute	What It Means	Example
Knowledgeable	We've read the law	"Section 214 requires BLM to select accessible recreation opportunities — disc golf fits."
Inviting	Everyone at the table	"You don't need to be a policy expert. We built the packet. You deliver it."
Grounded	Facts, not hype	"3 courses on 245 million acres. The gap is the opportunity."
Respectful	Partners, not adversaries	"We seek to partner with your field office" — never "we demand."
Urgent but patient	Deadlines are real	"The GNA sunset is January 2030. We have time, but not unlimited time."

Tone by Context

Website / educational	Warm, accessible, confident. A knowledgeable guide, not a professor.
BLM engagement	Formal but not stiff. Professional, data-driven, partnership-oriented.
Social media	Energetic, visual, action-oriented. "Where the wild things fly" energy.
Grant applications	Institutional, metrics-heavy, aligned with funder language.
Disc golf community	Passionate, inclusive, movement-building. "Let's change that."

Words We Use

"Partner" (not "demand" or "require")

"Public lands" (not "government land")

"Accessible" (both physically and financially)

"Stewardship" (not "maintenance")

"Low-impact" (not "no-impact" — be honest)

"Community-driven" (not "grassroots" — too political)

Words We Avoid

"Fight" or "battle" — we're building partnerships

"Free" as the primary selling point — leads with cost, not value

"Deserve" — implies entitlement; prefer "fits" or "aligns"

"Just" as a minimizer — don't undervalue the work

Technical jargon without explanation — always define SRMA, NEPA, CatEx on first use

Photography & Imagery

Photography should show disc golf in spectacular public lands settings — not manicured parks. The goal is to claim the visual identity of western public lands for disc golf.

Subject Matter (Priority Order)

1. Landscape-dominant shots with disc golf as a small element: a basket against red rock, a player throwing across sagebrush with mountains behind. The land is the star.

2. Diverse players in natural settings: families, veterans, adaptive athletes, youth groups.

3. Volunteer stewardship: installation days, maintenance work, community builds.

4. BLM landscapes without disc golf: the untouched potential. "Imagine a basket here."

Style

- Natural light. Golden hour preferred.
- Wide and medium shots. Show the scale of the land.
- Warm color grading. Lean into golden light, warm shadows.
- No heavy editing. Authenticity is the point.

Avoid

- Tournament/competition action shots (reads "sports brand")
- Product shots of discs (reads "manufacturer")
- Urban park courses (reads "local rec")
- Stock photography of any kind

Applications

Context	Guidelines
Website	Sandstone backgrounds (not white). Night Sky nav, Terra Cotta active states. Terra Cotta primary buttons, Summit Gold secondary CTAs.
BLM packets	Landscape photo cover. Jakarta headings in Terra Cotta. Inter body in Night Sky. Summit Gold data callouts. Sage dividers.
Social media	Terra Cotta or Night Sky backgrounds, or full-bleed landscape photo. Snow/Gold text overlays. #EXPLOREDiscGolf
Presentations	Night Sky title slides, Terra Cotta accent. Sandstone content slides. Oversized Summit Gold stats.
Status badges	Sage = built. Summit Gold = in progress. Driftwood = no contact. Basin Teal = interactive.
